

**HOW TO KEEP YOUR UTILITY BILL LOW
AND YOUR HOME COZY**
from ClassicCarpentry.com

DO NOT USE A TRADITIONAL FIREPLACE TO CREATE HEAT IN YOUR HOME.

A SEALED COMBUSTION WOOD STOVE IS A GOOD CHOICE & USE ONLY SEASONED WOOD FOR EASY STARTING

REMINDER TO **KEEP ALL WINDOWS INCLUDING STORMS CLOSED** ALL THE WAY-THE SMALL EFFORT WILL PAY FOR ITSELF

USE THE HUMIDIFIER SENSOR ON YOUR DRYER AND DO NOT OVER DRY CLOTHES

STORE HAZARDOUS MATERIALS OUTSIDE THE HOME OR AT LEAST AWAY FROM ANY COMBUSTION APPLIANCES

OLD FREEZER & FRIGERATORS SHOULD BE DISCONNECTED WHEN NOT IN USE AND IF MORE THAT 15 YEARS OLD SHOULD BE UPGRADED

THE ORDER OF BEST RETURN ON ENERGY SAVING IMPROVEMENTS IS
#1 INSULATION-AIR SEALING-VENTILATION
#2 HEATING PLANT UPGRADE
#3 WINDOWS & DOORS
this applies to most homes

RUN DISHWASHER ONLY WHEN FULL

USE THE WATER QUANTITY SETTING ON CLOTHES WASHER AND USE COLD WATER AS OFTEN AS POSSIBLE.
